

Georgia SB123 Chronic Absence Readiness Made Simple

Turn SB123 into stronger family partnerships and better attendance outcomes — all inside one system.

What SB123 means for your district

- Automate attendance workflows** → Attendance Pro automates family outreach, engagement, coding, and documentation so your team spends less time chasing paper and more time supporting families.
- Surface attendance trends and insights** → With two-way AI-powered SMS, Attendance Pro helps identify root cause information that gives a richer insight into why students are absent and how best to intervene.
- Generate clean, state-ready reporting** → Every absence and outreach is timestamped, responses and documentation are coded and easily exportable, and biennial state reports are a click away.

Capture attendance notes and interventions — Review attendance insights at multiple levels, and add notes, interventions, and collaborate with attendance teams at an individual student level where needed.

What SB123 Asks vs. How Attendance Pro Responds

What SB123 Requires	How Attendance Pro Responds
✓ Monthly attendance review teams with intervention plans for chronically absent students ✓ Written attendance protocols adopted by June 1, 2026 ✓ Attendance and climate committees meeting at least twice annually ✓ Biennial reports on attendance rates and discipline data	✓ Real-time chronic absence detection and insights give your review teams the data they need to effectively intervene ✓ Automated workflows keep protocols running without manual tracking ✓ Guided root-cause insights and attendance data reports support effective meetings ✓ State-ready reports generate automatically, no scrambling required

Why Georgia Districts Choose Attendance Pro

Catch attendance patterns and chronic absenteeism early

Maintain Supportive and proactive attendance workflows, automatically

Reach and engage families faster with two-way SMS, in their preferred language

Report on attendance data, and chronic absenteeism levels with confidence

---> **Identify, Notify, Document — Automatically**

Attendance Pro turns SB123’s requirements into an automated workflow your team will actually want to use. Here’s how it works, from the moment an absence is logged to the moment your report is ready to submit.

 Identify Catch chronic absence trends before they lock in	 Notify Reach and engage families quickly	 Document Build attendance records without the busywork
• Real-time flags as students approach chronic absenteeism, not after • Pattern detection across your attendance data • Early-warning insights for your attendance review team	• Automated SMS the day an absence is logged • Multilingual messages arrive in families’ preferred language • Shared year-to-date absent totals, no manual calculation	• Every absence timestamped, coded, and searchable • Guided root-cause context for intervention planning • One-click, state-ready reports for biennial submission

---> **Your Partner in Attendance and Chronic Absenteeism**

District Attendance Officer, Yukon Public Schools

“There’s going to be so much more I can share. There are so many meetings, such as IEP meetings and parent-teacher conferences, where people are going to get attendance information they’ve never been able to see before.” — Clay McDonald, District Attendance Officer, Yukon Public Schools, OK

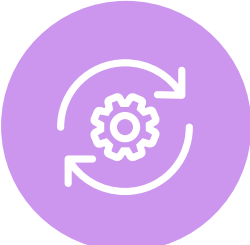

“We have been more than pleased with not only the tools provided by Apptegy for our communication needs, but more impressively with the first-class customer service since day one. If you are in the market for a full communication solution for your school district, look no further than Apptegy. You won’t be disappointed!” — Brian Butler, Director of Secondary Curriculum, Student Services, and Community Engagement, Lumpkin County Schools, GA
