

Attendance, Built for SB 58

Utah SB 58 Readiness Made Simple

- Utah's SB 58 requires school systems to adopt, by July 1, 2026, policies requiring districts to intervene earlier with students at risk of chronic absenteeism and to loop families in within two instructional days of unexcused absences. There's never been a stronger need for school-approved communication channels.
- Apptegy gives you an attendance system that is:

Proactive

Flags risks in real time, not after the fact.

Connected

Ties attendance, communication, and interventions together.

Effortless

Takes the manual work and guesswork off your plate.

- So your team can spend less time chasing data and more time supporting students.

Apptegy's Attendance Pro turns every SB 58 requirement into automated, family-friendly workflows your team will actually enjoy using.

Better Parent Experience

- ✓ An easy way to share upcoming absences, without the hunt for a form or a phone call
- ✓ An assigned district number and text makes it easy for families to share absence reasons, in their own language.
- ✓ Families can snap a picture of the excuse documentation and share by text

Tiered Intervention Engine

- ✓ Automatically trigger outreach as custom thresholds are crossed
- ✓ Identify and intervene early before becomes absenteeism becomes chronic
- ✓ Get real-time data reports, including AI summary insights that make reporting and board updates easy

...> **Make the most of every attendance conversation.**

- **Unified District Data**

All attendance records, communications, and reports in one easy-to-use platform.

- **Family & Student Friendly**

Outreach and notifications reach families instantly, in their preferred language.

- **Oversight & Collaboration**

Role-based permissions and consistent cross-school implementation bring teams together around SB 58.

- **Built to Last**

Enterprise-grade security and time-stamped records keep your data clean and your team confident.

---> **Identify, Notify, Document (Without the Manual Work)**

Attendance Pro doesn't just track attendance — it makes every conversation about attendance easier.

When your data is clean and your notifications are landing on time, your team knows exactly where each student stands and what interventions have been tried. And families feel genuinely supported instead of scolded.

Identify:

Find students before they're chronically absent.

- Automatically identify students who are chronically absent and those at-risk
- Get real-time flags and daily/weekly at-risk reports
- Track interventions offered across students and automatically trigger outreach at set thresholds

Notify:

Make communication with families automatic and timely.

- Every absence triggers a multilingual two-way text to families
- Each email outreach includes the running year-to-date total so families see the full picture
- Delivery is logged and confirmed — you always know families heard from you

Document:

See the complete picture of attendance across your district.

- Every absence, notice, intervention, and outcome is time-stamped and exportable
- Excused vs. unexcused reporting is built in for state submissions
- Annual data reports available at your fingertips

---> **Your partner in improving attendance communications, one conversation at a time.**

Apptegy's Attendance Pro is already turning attendance workflows into valuable touchpoints for school communities.

As one district leader puts it:

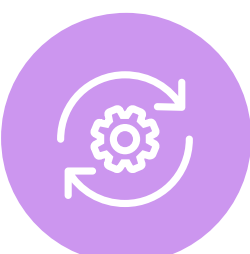

As soon as they said 'we think this will be seamless and it answers the question you wanted: *can we text?*' I was like, seriously, there is a system out there that will do this?

— Clay McDonald, District Attendance Officer, Yukon Public Schools, OK

---> **Attendance Pro helps districts reclaim hours for earlier interventions.**

Automate the work that drains staff capacity.

Reach every family and get instant responses.

Intervene earlier, across the district.

Gain confidence in high-stakes communication.

Understand the real reason behind absences.
